About the EWPAA

The Engineered Wood Panel Association of Australasia is an industry organisation, voluntarily funded by plywood manufacturers in Australia, New Zealand, Fiji and Papua New Guinea supported by affiliate members who are either suppliers of goods and services or merchandisers of EWPAA products.

The activities of the EWPAA are almost entirely market developmental, comprising the following key elements:

- Quality control and product certification
- Education and training
- Standards and codes
- Technical promotion
- Research and development
- Market maintenance
